R. Wolff, LaPorte Co., IN

SUBJECT: Fisher-Calo/New Plant Life Site, Kingsbury, Indiana  
(RV3 PRP-Lead Removal)

POLREP # 1

Site ID # GY

Response Authority: CERCLA

NPL Site: Yes

**SITUATION:**

The Fisher-Calo/New Plant Life Drum Site is located at the south end of the Second Road Area of the Kingsbury Industrial Park in Kingsbury, Indiana. The industrial park is a former military ordnance facility which now houses commercial and industrial facilities.

The dumping of drums at the Fisher-Calo/New Plant Life Area occurred adjacent to the building being leased by N.P.L., Inc. during the late 1970's and early 1980's. David B. Fisher has owned the Second Road area of the Kingsbury Industrial Park, where the drums are located, from 1974 to the present.

U.S.EPA issued an Administrative Order to New Plant Life on June 18, 1991 to perform the removal of the 300 abandoned drums at the site.

**RESPONSE ACTIONS:**

New Plant Life has hired the H.C.Nutting Co. to perform removal oversight activities and U.S. Abatement to perform remediation activities at the site. On site preparations for drum sampling and overpacking are beginning this week.

**FUTURE ACTIVITIES:**

- drum sampling
- soil sampling
- drum overpacking
- analysis of wastes

-2-

- off-site transportation and disposal of hazardous wastes
- confirmation of cleanup sampling

**COSTS:**

This is a PRP-funded project.

No ERCS contractor costs are anticipated:

TAT and TES contractor costs have been incurred for PRP oversight purposes.
